

Copley Community Improvement Corp.

For Immediate Release

Copley Community Improvement Corporation

Copley, Ohio

March 23, 2025

The Copley Community Improvement Corporation, a non-profit organization working within Copley Township to provide and encourage strategic, economic, commercial and civic development, has entered into an agreement to develop 55 acres off South Cleveland-Massillon road with Granger Property Development.

The development will include multi-family apartment homes and retail commercial space that will create housing options in the township and increase walkable public space in the heart of Copley. The development will strengthen the residential base supporting the growing number of local Copley businesses along Cleveland- Massillon Rd. and Copley Circle.

“We are very excited about this development and the opportunities it will provide to a key corridor within Copley Township. I am very proud of the work and thoughtful consideration that went into this agreement and look forward to the benefits it will provide to surrounding businesses on Cleveland Massillon Rd and Copley Circle,” said Jessica Vargo- President of the Copley Community Improvement Corporation.

Granger Property Development will be working through necessary approvals and reviews in partnership with Copley Township. The actual groundbreaking is estimated to start in about 18 to 24 months.
